The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.</li> <li>It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.</li> </ul>		
(A	applicant/Applicant's Representat	ive Signature – if appropriate)

Application No. 10/522,440

Continuation of Substance of Interview including description of the general nature of what was discussed: In an effort to advance prosecution, applicant and examiner agreed via an Examiner's Amendment to amending independent claims 1 and 10 to incorporate the limitations of dependent claims 7 and 16; and incorporating "arranging the electronic system to determine whether there is a fault with a fault-monitoring device by being arranged to create a record of a fault from the output of the final fault-monitoring device, the absence of a record being created when the electronic system induces a fault signal output signifying a fault in one of the fault-monitoring devices," limitations found in independent claim 1 into independent claim 10.
